

MATT'S NOTES

SEPTEMBER 12TH & 13TH
2026

In lieu of what I've been doing lately for notes, here's something a bit different. Presently, I'm lacking access to a scanner which would be suited to sharing handwritten notes, which is my preferred mode of writing extemporaneously most of the time!

It's appropriate to be in Kamloops for the first episode of season five, because this same time in 2022, I was in Kamloops and this EnT was just getting off the ground with Dr. Reid! It's great to be back these five months or so later, and it was great meeting Dr. Reid for lunch in PEI over the summer, the first time we've met in person since before this EnT began. It was a pleasant time for many reasons!

It's a funny time from a personal standpoint to be engaging with ed tech again vis-à-vis this podcast because it's the first extended period for me of working outside the education sector in more than 20 years! This year, 2026, is my twentieth teacher-versary! So, it's interesting to be in EnT mode and working extensively in another sector, about as different from any other work environment or context since I first entered the paid workforce at age fifteen at McDonald's in the kitchen, at the location on Prospect Street conveniently (or, at times, inconveniently) directly beside Fredericton High School!

Thanks a bunch to anybody checking out this EnT
for any reason at any time whatsoever!

It is nice to be able to do fun things like these
here endeavors!
